

## Demo javascript

### Project 8 - Weather App

Tasks	Details	Estimated Time ( hour)	Real Time (hour)	Date
see some weather apps & analysis it	analysis work way	4		1402/07/08
	search some APIs and how they work			
	thinking about its logic			
creating the basic structure of the weather app ( HTML & Bootstrap )	thinking about its structure	4		1402/07/09
	use html & type content			
	use classes of bootstrap	4		1402/07/10
	code sorting	4		1402/07/11
	layout	4		1402/07/12
Designing weather app ( CSS )	general design	4		1402/07/15
	adjust distanse	4		1402/07/16
	position of items	4		1402/07/17
	adjust colors	4		1402/07/18
	making shape	4		1402/07/19
perform digital clock ( javascript )	Creating the relevant scenario & start	4		1402/07/22
	find API & use it in functions	4		1402/07/23
	starting javascript code	8		1402/07/24-25
	using functions	12		1402/07/26-29-30
	perform logical codes	4		1402/08/01
	debug codes	8		1402/08/02-03

total estimated time	80
total real time
