

## Demo javascript

### Project 9 - Music Player

| Tasks                                                  | Details                                             | Estimated Time<br>( hour) | Real Time<br>(hour) | Date       |
|--------------------------------------------------------|-----------------------------------------------------|---------------------------|---------------------|------------|
| Creating the basic structure<br>( HTML & media query ) | analysis work way & thinking about its logic        | 4                         | 2                   | 1402/09/04 |
|                                                        | designing the structure on paper                    |                           |                     |            |
|                                                        | use html & basic design of its structure            | 4                         | 2                   | 1402/09/05 |
|                                                        | type content & using media query                    | 4                         | 2                   | 1402/09/06 |
|                                                        | use html & type content & media query to responsive | 4                         | 4                   | 1402/09/07 |
| Designing the structure<br>( CSS )                     | general design                                      | 4                         | 2                   | 1402/09/08 |
|                                                        | adjust distance & position of items                 | 4                         | 2                   | 1402/09/11 |
|                                                        | select images & songs & adjust colors               | 4                         | 4                   | 1402/09/12 |
| Perform music player<br>( javascript )                 | Creating the relevant scenario & start              | 4                         | 5                   | 1402/09/13 |
|                                                        | starting javascript code & using functions          |                           |                     |            |
|                                                        | perform logical codes about image & background      | 4                         | 5                   | 1402/09/14 |
|                                                        | perform logical codes about buttons                 |                           |                     |            |
|                                                        | debug & cleaning codes                              | 4                         | 3                   | 1402/09/15 |
